

CURRICULUM VITAE

John D. Fernstrom, Ph.D. is Professor of Psychiatry and Pharmacology at the University of Pittsburgh School of Medicine, Research Director of the UPMC Weight Management Center, and Director of the Basic Neuroendocrinology Program of the Western Psychiatric Institute & Clinic. He received his S.B. in Biology and his Ph.D. in Nutritional Biochemistry & Metabolism from the Massachusetts Institute of Technology (MIT). He was a postdoctoral fellow at the Roche Institute for Molecular Biology in Nutley NJ. Before coming to the University of Pittsburgh, Dr. Fernstrom was Assistant and then Associate Professor of Physiology in the Department of Nutrition & Food Science at MIT. He has served on numerous advisory committees; he is presently a member of the International Advisory Council, *Monell Chemical Senses Center*. He is a past member of the Standing Committee on the Scientific Evaluation of Dietary Reference Intakes, *National Academy of Sciences*, the Finance Committee of the *North American Association for the Study of Obesity*, the Council of the *American Society for Nutrition*, and a former chairman of the Nervous System Section of the *American Society for Nutrition*. He is a member of numerous professional societies, including the Obesity Society, the American Society for Nutrition, the American Society for Pharmacology & Experimental Therapeutics, the American Physiological Society, the American Society for Neurochemistry, and the Society for Neuroscience. Among other awards, Dr. Fernstrom received the Mead-Johnson Award of the American Society for Nutritional Sciences, a Research Scientist Award from the National Institute of Mental Health (US), a Wellcome Visiting Professorship in the Basic Medical Sciences, and an Alfred P. Sloan Fellowship in Neurochemistry. His current research interests concern the influence of diet and drugs on the synthesis of neurotransmitters in the central nervous system, and the pharmacologic treatment of obesity. Dr. Fernstrom has published over 200 articles and reviews in his areas of expertise, and has edited the proceedings of five scientific conferences.
